### **BIOBASED RAILROAD LUBRICANTS**

Safe for the Railroad - Safe for the Environment

## **ECORail™ Products by Railmark Track Works**

Railmark Track Works presents its ECORail™ brand of biobased rail lubricants featuring superior lubricity, resulting in less friction which translates to less heat and less wear.

ECORail biobased railroad lubricants and fluids include Universal Switch Lubricants, Frigid Climate Switch Lubricants, Top of Rail Friction Modifiers, Solid Stick Lubricants, ISO 32 & ISO 46 Hydraulic Oils, and Universal Tractor Hydraulic Fluids.

Railmark has been offering its ECORail biobased rail lubricants to railroads and rail users along with Railmark's customized lubrication maintenance programs since 2012.

#### PRODUCT STRENGTHS

- Premium quality biobased switch plate lubricants, exceeding any others on the market with superior lubricity resulting in less friction, less heat and less wear.
- Meets U.S. Environmental Protection Agency's (EPA) "Environmental Preferable Purchasing (EPP)" criteria and is a U.S. Department of Agriculture (USDA) "BioPreferred™" product and is "Biobased Labeled".
- Manufactured in the USA from renewable US-grown crop-based oils and a lithiumbased thickener. Supports the US farmer and US small business.
- Higher Viscosity Index. Its base oils are 2x higher (over 200) than petroleum—based oils (95), providing more stable viscosity at different temperatures and a wider range of operation.
- Outperforms many synthetics based on tests and usage and it is less expensive.
- Due to their polarity, biobased molecules bond and adhere to metal surfaces better than petroleum-based oils and greases.
- · Higher flash point than mineral greases for increased safety.
- Contains no heavy metals, no chlorine and no harsh odors. Safer for both your workers and the environment versus petroleum-based greases and oils.
